PROFILE

Currently working for almost 3 years as a solo web developer at Cause Effect, a digital performance agency. Mostly building websites through WordPress and Shopify. High interest slightly towards front-end development.

I'm a self-taught developer. Having knowledge in HTML, CSS, JavaScript, jQuery, PHP, Liquid, MySQL, SEO and Git. Currently, in learning of React. I am a kind of guy that pretty independence and love challenges.

EDUCATION

Bachelor of Software Engineering
University of East London (UEL)

2014 - 2016

Diploma in Computer Engineering
Universiti Malaysia Perlis (UniMAP)

2011 - 2014
